

Radiator Technical Information

Product name:	Radiator
Heat Dissipation Capacity	4 kW
Power Rating	43 kW
Coil Type	gilled tube
Shell	Aluminium alloy
Blower Air Flow Volume(Zero Pressure)	500 m3/h
Dimension	700x130x220(mm)

Product features

The product can be installed on the side wall of bus, flexible installation position and reasonable arrangement, it can make more uniform temperature distribution inside the bus, improve heating comfort, the air flow more comfortable. Adjustable speed blower can meet different heat air demand. With high efficiency SONGZ heat exchanger, which has higher heat conversion efficiency.
